COURSE DESCRIPTION

This course offers a global perspective on long term change in the world economy, and the interaction between countries, regulatory systems and organizations. Attention is especially focused on the dynamics of international trade and investment, including the relationship between trade and economic growth, trade imbalances and protectionism, foreign direct investment and the role of MNCs in the global economy. The role of economic, social and political institutions is also a central feature of our discussion, including the international trading and financial systems, national institutional environments, and the interaction between multinational companies and both the state and multilateral institutions.

COURSE MATERIALS

Readings for each class are listed in the detailed course outline. Several of these readings come from the following text, which is provides a good overview of the subject matter of this course:

Other readings are from journals and books which are easily available in the university library.

COURSE STRUCTURE

Online Participation

This is a graduate level seminar course. This means that we are all collectively responsible for learning from this course. You are expected to do all the required readings for each session. Furthermore, since we are running this class as a combination of synchronous and asynchronous remote, you will need to engage with your fellow students through the online discussion board.

For each week, I will be positing questions on Canvas. **Please answer any one of the posted question for any six modules in 500-1000 words.** You will need to post your answers, and read the answers posted by others.

**You also need to post the critique or comment on at least one post (of another student) every week.**

Research Paper
You will be required to write a research paper. The paper should relate to one of the topics discussed in class and should be between 4000-5000 words (excluding references). It will be due on the last day of class. We will decide a date for presentation of these research papers.

The topic for the research paper must be chosen from one of the topics covered during the term. The term paper must demonstrate an understanding of the issues raised in the relevant lecture and make reference to the readings set for that topic. The course has been designed as an integrated treatment of the subject with underlying connections between topics. The term paper should therefore also demonstrate an appreciation of how the answer to a specific question on a given topic fits into the broader context of the course.

**ACADEMIC INTEGRITY**

*I do NOT tolerate cheating.* Students are responsible for understanding the RU Academic Integrity Policy ([http://academicintegrity.rutgers.edu/](http://academicintegrity.rutgers.edu/)).

I will strongly enforce this Policy and pursue *all* violations. On all examinations and assignments, students must sign the RU Honor Pledge, which states, “On my honor, I have neither received nor given any unauthorized assistance on this examination or assignment.” I will screen all written assignments through *SafeAssign* or *Turnitin*, plagiarism detection services that compare the work against a large database of past work. Don’t let cheating destroy your hard-earned opportunity to learn. See [business.rutgers.edu/ai](http://business.rutgers.edu/ai) for more details.

**CLASSROOM CONDUCT**

I expect you to be considerate to your classmates and the professor, follow class decorum, and make the learning experience to be both positive and rewarding.

Since faculty members tend to have somewhat different expectations as to class behavior and course norms, I'd like to outline a few of my expectations concerning such matters.

1. I plan to be prepared for every class and I expect you to do the same. Since I frequently call on individuals whose hands are not raised, you should let me know before the start of the class if some emergency has made it impossible for you to be prepared adequately for that class.

2. I consider attendance at every class to be very important. Please schedule other activities at times other than those during which this class meets. In the event that you do have to miss a class during the semester, I would appreciate it if you would let me know in advance of that class.

3. Academic integrity is very important. All assignments will be checked by “safe assign”, and cases of plagiarism will be treated as per the university policies.

4. I will be happy to discuss the course, your progress, or any other issues of interest to you on an individual basis.

5. Given the importance of this course, I will do everything that I can to use class time effectively and ask that you do the same. This will include arriving, starting, and ending on time.
