COURSE DESCRIPTION

The rise in importance of the supply chain at leading companies has created a higher level of expectations regarding cross functional planning. While cost-focused supply chain improvements like sourcing, lean manufacturing, contract manufacturing, and third-party logistics have all helped to improve the bottom line, the next challenge is to achieve full alignment with the strategic intent of the business and effectively execute growth and revenue objectives. Industry leaders are implementing Sales Inventory, and Operations Planning processes to ensure that the proper planning and execution is in place to deliver revenue, profit and customer service expectations. This course will focus on the fundamentals of a Sales Inventory, and Operations Planning process and how it establishes strategic and organizational alignment, enhances operational excellence and competitive advantage, and most importantly, improves supply planning and execution.

With the understanding of the value of Sales, Inventory and Operations Planning, four notable trends are forming in the supply chain planning technology and processes. First, there will be a transition from Sales Inventory, and Operations Planning to integrated business planning, which will bring with it two additional trends: moving toward more real-time planning environment and increasing task automation. Last, there will be a marrying of supply chain planning and analytics, for increased visibility and better data for decision making. These trends should converge to make supply chain planning a more deeply integrated process, both in terms of technology and across the business.

COURSE MATERIALS

Required Book:

Bricks Matter: The Role of Supply Chain in Building Market-Driven Differentiation
Authors:
Lora M. Cecere
Charles W. Chase Jr.

ISBN 978-1-118-21831-0
COURSE PROCEDURES

1. Course lecture notes will be posted on Canvas prior to each class. Students are expected to review the lecture notes prior to each class.
2. All assigned reading must be conducted prior to class.
3. Punctuality is important.
4. Respect for one another is mandatory during class discussion.
5. All cell phones must be silenced at the start of class to minimize disruptions. If you need to take a call, please exit the classroom quietly so that the discussions are not disrupted.
6. If you will miss any class, make arrangements with the instructor for any material that may be missed. Missing more than one class will not be acceptable.
7. Participation is strongly encouraged and is a part of your grade. Everyone is expected to participate fully in class discussions.

CASE ASSESSMENT REQUIREMENT

Students are to carefully read the cases and write a 2 to 3 page executive review on how to optimize the situation to ensure optimal demand and supply objective are meet.

ACADEMIC INTEGRITY

I do NOT tolerate cheating. Students are responsible for understanding the RU Academic Integrity Policy (http://academicintegrity.rutgers.edu/)

I will strongly enforce this Policy and pursue all violations. On all examinations and assignments, students must sign the RU Honor Pledge, which states, “On my honor, I have neither received nor given any unauthorized assistance on this examination or assignment.” I will screen all written assignments through SafeAssign or Turnitin, plagiarism detection services that compare the work against a large database of past work. Don’t let cheating destroy your hard-earned opportunity to learn. See business.rutgers.edu/ai for more details.

PERFORMANCE ASSESSMENT
1. Case Assignment – 30% each

   a. HBR – Demand and Supply Forecasting at Air Products

   b. HBR – Align Technology, Inc.

2. Final Exam – 40%

COURSE SCHEDULE

Semester Breakdown:

**Week 1**

**Resource:**
- [http://www.supplychainbrain.com/content/video-library/video-library/single-article/article/10-years-after-how-close-are-we-to-true-demand-driven-supply-chains/](http://www.supplychainbrain.com/content/video-library/video-library/single-article/article/10-years-after-how-close-are-we-to-true-demand-driven-supply-chains/)

**Chapter Reading:**
- Chapter 1 and Chapter 2

**Case Reading:**
- HBR – Aligning Incentives in the Supply Chains
