  **  
  *(pre-reqs: 33:799:380 & seniors only)*

3 Supply Chain electives (9)  
**

* Students should note that there are two introductory Finance courses. Financial Management for Finance Majors (33:390:310) will be for those who intend to major in Finance. Financial Management (33:390:300) will be for those who have no intention of pursuing finance. Students planning to double major in Supply Chain and Finance should take Financial Management for Finance Majors (33:390:310) instead of Financial Management (33:390:300). Students who switch into the Finance major will also need Finance 310. Credit will not be given for both courses, so, if students have any interest in pursuing Finance, they should take Finance 310. Otherwise, Finance 300 will be sufficient.

** Students can take a maximum of 6 experiential credits to count towards their major from among these three categories: Industry Client Projects, Internship in Supply Chain Management, and Co-op in Supply Chain Management. Three credits will count towards the required section and three credits towards electives. An additional 3 credits can be counted towards general elective credits towards graduation. All three of these courses are by application only.

Please note that if you are a double or triple major in Business School departments, and are utilizing a particular course to count for a requirement in each of two majors, you are only permitted to do this “double count” ONE TIME, in RBS. Once you have utilized your one opportunity to “double count” a course between two majors, you will have exhausted this possibility for the remainder of your Bachelor’s degree. One “double count” possibility, per student.
